RECEIVED
JUL 03 2003

TO THE COMMISSIONER FOR PATENTS:

Technology Center 2600

On May 27, 2003, applicants submitted a complete and formal response to the Office Action mailed February 26, 2003. Applicants respectfully request the Examiner to consider this supplemental paper and the attached documents concurrently with the earlier-filed response.

First, provided herewith are declarations by the named inventors John A. Pinkney and Spence T. Nichols under 37 C.F.R. § 1.132. These declarations attest to the facts set forth in applicants' response of May 27, 2003, which removed the Pinkney et al. article as prior art.

Second, provided herewith under 37 C.F.R. § 1.125(b) is a clean copy of a substitute specification, excluding the claims. In reviewing the application, applicants observed a fax or printer error that may have caused certain lines of the application document as filed to be difficult to read. These lines appear at line 38 of page 1 and line 35 of pages 2-4 and 6-9.

The substitute specification includes no new matter. A marked-up version of the substitute specification is also attached in which the lines noted above are underlined.
